Client Update 3/21/2016:

- Fixed the an issue that caused "ghost" collisions with some models.
- Improved how missing models are detected & handled.
- Fixed an issue that caused models that you didn't have to be listed in your library.
- Fixed an issue that would often break the YouTube room of the tutorial.

HOT FIX 3/22/2016 12:31PM. V.2018.3.1:

Update for the privacy settings, it's important for you to read it. You can see the full descriptions for the update [here](http://scjogos.com). [scjogos.com]. **The Great Mech Wars Have Begun!:**

Mech combat has escalated to explosive new level- Hellfire has ignited! Get behind the controls of a mech and roam the battlefield freely. Pilot these massive weapons of destruction and battle for your chosen faction. The Great Mech Wars have begun: It's time to fight for a final victory and take combat to the desert, mountains, or the post-apocalyptic city: Whoever rises from the smoldering rubble will reign what's left of our shattered world.

You have the freedom to fight for your faction of choice: Fight for the USFF (The Free), or for HUMNX (The Way Forward) and put an end to the conflict. HUMNX was nearly defeated in the previous campaign, but before the USFF forced them to surrender the enemy's engineers deployed three battle-ready mechs. Now that both warring factions have fearsome new weaponry in their arsenals, our fates will be decided by way of multi-mech combat and deathmatch.. **Store page available for Brazilian Portuguese:**

Deep Race: Space store page is now available at Brazilian-Portuguese language. **I NEED YOUR HELP!:**

Hey guys, so the update is ALMOST finished!

I don't want it to be released just yet however. Contact ANY AND ALL you-tubers and tell them to contact me at ["varunananth1@gmail.com"](mailto:varunananth1@gmail.com) in order to generate publicity for the update. They will get a beta copy for the game as well as a spot in the credits (not much but its what I can do).

Leave a comment if you do it with a link to their channel.

One big regret about my initial launch of "Seek Or Die" was that I did not publicize my game enough. I want to change that. However, I cannot do it alone. If you guys could do this it would really help a small game developer out.

Spread the word so other people can scream along with you!
